Azhar Shaikh

Senior UX Designer | Automotive HMI, Healthcare, Fintech & SaaS

Mumbai, India (open to Pune, Remote and Dubai) | +91 97692 11554 | mazhar.shaikh91@outlook.in | linkedin.com/in/mazharshaikh91 | Portfolio: blackhellcan.github.io/portfolio

PROFESSIONAL SUMMARY

Senior UX Designer with 8 years in UX and 11 in tech. Led the menu and navigation architecture for Bajaj's 5" TFT motorcycle clusters, chosen over a competing team's design and now shipping on the Pulsar N160 SS. Designed emergency-care device software for Philips, tested with paramedics, and a Hindi-first app for low-literacy street vendors that is live today. Leads small design teams end to end, from research and information architecture to prototypes built alongside engineering.

SKILLS

Design: Interaction Design, Information Architecture, HMI / Instrument Cluster Design, Mobile App Design, Responsive Web Design, Design Systems, Prototyping, AI Product Design

Research: User Research, Usability Testing, Personas, Journey Mapping, Stakeholder Workshops, Competitor Benchmarking

Accessibility & Compliance: Accessibility (WCAG), Inclusive Design for Low-Literacy Users, Medical Device and Homologation Standards

Leadership: Team Leadership, Mentoring, Client Workshops, Cross-Functional Collaboration, Agile / Scrum, Developer Handoff

Tools: Figma, FigJam, Axure RP, Balsamiq, Adobe XD

Technical: HTML5, CSS3, JavaScript, Python

EXPERIENCE

Senior UX Designer, PeepalDesign — Jun 2021 – Present

Mumbai, India (Remote)

Design consultancy. Led UX on fixed-scope client engagements in automotive, healthcare, fintech and SaaS, often two in parallel. Selected engagements, most significant first:

PeepalDesign — Company Website, AI Apps & New Business — May 2026 – Present

- Redesigned PeepalDesign's company website.
- Designed AI apps for client companies, and wrote design proposals to win new client engagements.

Bajaj Auto — 5" TFT Instrument Cluster — Jan 2025 – Oct 2025

- Led a 4-member team designing the information architecture, menus and navigation for Bajaj's move from LCD to 5" TFT clusters; chosen over a competing design team's architecture and shipped first on the Pulsar N160 SS (2026).
- Designed for minimal cognitive load and high-speed visibility, with inputs built for tactile handlebar buttons that meet OEM vibration tolerance standards.
- Ran on-site workshops at Bajaj's engineering facility and built frame-by-frame Figma prototypes in parallel with Bajaj's developers to streamline handoff.

Philips — Emergency Care & Monitoring (Tempus Pro) — Dec 2023 – May 2024

- Designed the next-generation Tempus Pro companion app for remote vitals monitoring in emergency settings.
- Modernized the device UI to meet homologation and accessibility standards.
- Built a UI system shared across clinical devices to keep interactions consistent.
- Ran usability testing with paramedics to validate safety-critical interaction flows.

Bajaj Auto — Mera Bajaj App & Chetak EV Display — Mar 2023 – Jun 2023

- Led the redesign of the Mera Bajaj owner app for Pulsar riders (pairing, trips, navigation, service booking), mentoring a junior designer; live on the App Store and Google Play for about two years.
- Designed the navigation and menu system for the Chetak EV's 5" display, now shipping on Chetak EV scooters.

PockIT — IT Repair & Refurbished Device Marketplace — Apr 2024 – Dec 2024

- Led design of a two-sided mobile platform with a junior designer: a customer app for booking IT repairs and buying refurbished devices (B2C and B2B), and a technician app for managing daily jobs; now live with 1,000+ users.
- Designed trust into every step for low-tech users: device-first booking in plain language, upfront pricing, in-app approval for new parts, and a happy code the customer shares to close each job.
- Scoped a lean first release with the client to compete against better-funded players, so operations could be set up before scaling the product.

Jeevika — Street Vendor Platform May 2022 – Oct 2022

- Led design, with a junior designer, of a Hindi-first mobile app and NGO dashboard that help street vendors know their rights, call for help and track legal cases; now live and in use.
- Turned CCS's vendor interview data into personas, and designed an illustrated interface in everyday Delhi Hindi for low-literacy, first-time smartphone users.
- In a follow-on engagement, designed the admin panel for CCS and vendor associations: harassment heatmaps, complaint management with escalations, analytics and reports; now live.

Portico — HRMS Platform Redesign Oct 2021 – Apr 2022

- Led a team of 4 designers to redesign a legacy HRMS into a modern SaaS platform, reducing workflow steps for core administrative tasks by 30%.

Philips — Philips Displays Global Website Redesign Nov 2025 – May 2026

- Led the redesign of the global Philips Displays responsive website, restructuring information architecture and navigation to improve product discoverability.
- Built a modular visual pattern library to keep design consistent across regional sites.

Fintech Client — Mutual Fund Module Jun 2021 – Sep 2021

- Led design of a mutual fund module inside a stock-trading app for first-time and experienced investors, from stakeholder workshops and competitor benchmarking to two reviewed rounds of core flows; paused when the client stopped external work.

Other engagements: Chetak EV owner app UI revamp, Bajaj Auto (Dec 2025 – Jan 2026); clinical management module UX, HealthAssyst (Jan – Mar 2024); performing-arts learning app, YoungArtiste (Nov 2022 – Mar 2023, put on hold by the client before launch).

UX Designer, White Digital Feb 2020 – Mar 2021
Mumbai, India

- Led the design team at a digital marketing agency, designing responsive websites and web apps for clients across industries.

UX Designer, Infosys Nov 2018 – Dec 2019
Bengaluru, India

- Designed a machine-learning product that reduced dispatcher workload in IT service management.
- Led design of a gamification platform for internal idea-sharing.
- Built an internal client-management portal for gathering automation requirements across multiple clients.

System Engineer, Infosys Oct 2015 – Oct 2018
Bengaluru, India

- Configured client networks for connectivity, performance and security.

EDUCATION

MS, Information Technology, University of Mumbai | 2019 – 2021
B.Sc., Computer Science, University of Mumbai | 2012 – 2015

CERTIFICATIONS

- Google UX Design Professional Certificate, Google (Coursera) | 2022
- UXPM Level 1 & 2, UX Alliance | 2021 – 2022
- Introduction to User Experience Principles & Processes, University of Michigan (Coursera) | 2019

ACADEMIC LEADERSHIP

Board of Studies Member, Royal Higher Education Society's College Jun 2024 – Present
Thane, India

- Contribute to curriculum development and academic direction for the college's design and technology programmes.
